

BREMBO HIGH PERFORMANCE GRAN TURISMO APPLICATION LIST

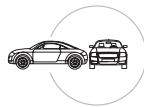

GRAN TURISMO LINE

The line is available for the most demanding customers. This braking system originates from the Racing components, consisting of a ventilated, integral (GT-Junior) or composite (GT) disc, available drilled or slotted, 4 and 8 piston aluminium calipers, a complete

set of high performance brake pads, metal braid tubes and high quality small parts.

Please remember that in the European Community, Gran Turismo products may only be used in racing and on private roads, unless you have obtained a new approval in compliance with directive 98/12/EC.

Note Legend

- Requires minor modification to the OEM steering knuckle
- Requires minor modification to the OEM steering knuckle and use of custom hubs which are included in kit
- 1995 E36 M3 models require minor modification to the lower control arm outboard of the ball joint
- This system consists only of 2-piece disc assemblies which directly replace the OEM discs
- Requires significant modification to the OEM knuckle
- This system eliminates the parking brake function

General Notes

- Systems are front only and feature 4-piston calipers unless otherwise noted.
- Many of the GT systems require modification to, or removal of the OEM dust shield or backing plate.
- Unless otherwise specified, all systems available either drilled or slotted. The 3rd digit in the part number denotes disc type. 1 = drilled, 2 = slotted
- Add 1, 2, or 3 to end of part number for caliper color. 1 = black, 2 = red, 3 = silver
